^{*}Starting from the current fiscal year, non-allocable operating expenses associated with the R&D Department, which had previously been included in the Adjustments section, have been reflected in segment profit of each reportable segment. Accordingly, the figures for the same period of the previous year have been adjusted in accordance with the calculation method after the above revision.

^{*}Segment profit on a consolidated basis has been adjusted (by deducting non-allocable operating expenses) to be equal to operating income in the consolidated statement of income.

^{*}Consolidated net sales have been presented after eliminating intersegment transactions of the Overseas Business and the China Business.

1. Overview of Organizational Changes

To bolster enterprise value, the Pigeon Group has established a global head office (GHO), to integrate head-office functions Group-wide. Under this framework, the Group is working continually to concentrate and strengthen those functions. In addition, the Group is dividing its segments responsible for operations and growth into four businesses, mostly by region: The Japan Business (Domestic Baby & Mother Care Business, Health & Elder Care Business, Child Care Service Business), China Business, Singapore Business and Lansinoh Business. With these clearly defined roles and responsibilities, these four businesses maintain liaison with GHO to pursue continuous, long-term growth.

The point is...

In accordance with a growth scenario of the Pigeon Group formulated by GHO from a "total optimization" perspective, we will preferentially invest our management resources to make the scenario a reality. In line with the basic strategy, four profit-earning business divisions (namely, Japan, China, Singapore, and Lansinoh) agilely address changes in environment with autonomous leadership to continue enhancing profitability of the Group as a whole, thus making Pigeon a great place to work with higher employee morale and higher corporate value.
