

Verification

In a verification audit, the organisation

Lansinoh Laboratories Inc.

at the site

Bayerischer Platz 1, 10779 Berlin

and further locations according to the annex has demonstrated that the Corporate Carbon Footprint has been determined in accordance with the requirements of the standard

GHG Protocol - Corporate Accounting and Reporting Standard (March 2004 edition)

The verification was carried out in accordance with the requirements of ISO 14064-3:2020-05. The materiality threshold was 5%. The verification was carried out with a reasonable level of assurance.

The information required for the verification of the greenhouse gas inventory was clearly and accurately presented in the greenhouse gas report "Carbon Footprint Report Lansinoh_2025_v3.0" dated 02/07/2026 for the reporting period from 01 January 2025 to 31 December 2025. The verified data and information are based on reliable data sources and assumptions.

On the basis of the verification procedure carried out, it can be confirmed that the statement on greenhouse gas emissions contains the relevant data and information and complies with the normative requirements for the quantitative determination, monitoring and reporting of greenhouse gases or relevant national standards or procedures.

The basis for the verification is the test report with the number C-26-24778.
